

PROFINE® SILVER DRINKING WATER MICROFILTRATION

Profine®
water filtering cartridge

Profine® filter cartridge

The **Profine® Silver** cartridge is a fine filtration for water used in food.

It is used to make the water safer to drink due to the micro level filtration and dechlorinating action.

Choose the SILVER Cartridge for your home tap with its 0.5 micron filtration with safer dechlorinating action.

Features

- **PROFINE® SILVER** removes bad odors and off-tastes, reduces chlorine, and has a filter rating of 0,5 micron.
- A cartridge with the highest level of filtration that includes and maximizes the advantages of the carbon block system additive with silver to give the filter a bacteriostatic feature
- Composite cartridge suitable for treatment of drinking water in compliance with Directive 98/83/EC.

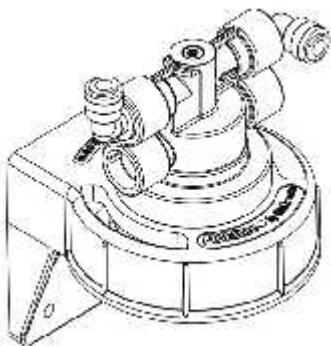

Dimensions

External diameter: 87.4 mm

Small cartridge height: 269 mm

Medium cartridge height: 384 mm

Large cartridge height: 529 mm

TECHNICAL SPECIFICATIONS

	SMALL	MEDIUM	LARGE
Functional flow rate	3 l/min*	5 l/min*	7 l/min*
Working pressure	Min. 29 – Max. 87 Psi	Min. 29 – Max. 87 Psi	Min. 29 – Max. 87 Psi
Temperature	Min. 4 Max. 30°C (39-86°F)	Min. 4 Max. 30°C (39-86°F)	Min. 4 Max. 30°C (39-86°F)
Capacity certified by TIFQ	10.000 l*	15.500 l*	22.000 l*
Autonomy by external laboratory	until 15.000 l*	until 24.000 l*	until 45.000 l*

CARTRIDGE REPLACEMENT INSTRUCTIONS

			
Close the water inlet valve and open the outlet valve.	Turn the cartridge a ¼ turn to the left and pull it out.	Remove the cap seal and moisten the O-rings with water. Push the cartridge up and turn it a ¼ turn to the right.	Open the water inlet valve and allow the water to run for 5 minutes before taking any water
