

LQF® RO-3 PRO
(1100L / DAY) Reverse Osmosis System

General

- Water Production of approximately 1100 liters/day
- Stainless Steel frame
- Microcomputer controller with quality meter, no water protection, water leak protection, filter replacement reminder, water quality alarm, Water quality indicator.
- Separate motor and rotary pump for easy servicing
- Electrical isolator switch
- All electrical and electronics totally covered
- 316 stainless steel mixing needle valve to control outlet water quality

Technical

RO Dimensions: H:470 mm x W:170 mm x D:460 mm

2x TW-2012-180 Membrane elements

Motor: 230V-50Hz, 0.3kW

Rotary Vane type pump

Optional Danfoss pressure cut off switch for connecting with pressure tank

3 Stage Filtration

- Stage 1 Profine Blue** sediment and carbon pre-filter
- Stage 2 (2 x RO membranes):** Removes ions, nitrates, organics, THM, silica, bacteria and particles, dissolved gases*
